Fund Objective

The Fund aims to provide monthly income returns by investing in the Target Fund. The Target Fund's objective is to provide monthly income returns from a diversified portfolio of debt securities including asset backed business loans, director guaranteed business loans, and senior loans to non-bank lenders secured against a loan portfolio that provide regular income and capital stability.

The Target Fund will work with marketplace and peer-to-peer lenders who lend to businesses including small and medium enterprises ("SMEs") in Australia.

The Target Fund will look to purchase notes from special purpose vehicles, or units in managed investment schemes that hold the underlying loans originated by the originators. Accordingly, the Target Fund will invest in a pool of eligible assets, primarily focused on debt issued by non-bank lenders and/or other forms of debt including senior debt, asset backed securities, unlisted securities and loans via peer-to-peer lending platforms.
